

Deanna Rose Children's Farmstead

Overland Park, Kansas

Our Vision: Create a destination that recreates a turn of the century Eastern Kansas Farmstead. People of all ages will learn about authentic farm-life through interactive, historical, and educational activities and facilities designed to preserve our heritage and natural surroundings.

Our Mission: The Deanna Rose Children's Farmstead has served as a resource in the community since 1976 and continues to provide the people with a relaxing family activity in the Overland Park area. Over the next 10 years the farms lead will expand to the west where our mission is to preserve the legacy of the Kansas family farm by creating a setting that will provide all visitors an opportunity to enjoy a turn-of-the-century farm. It will be a place where everyone can experience the gathering of eggs from the chicken coop, enjoying the sweet smell of hay, or of finding out firsthand what it is like to milk a cow. The Deanna Rose Children's Farmstead, with its expansion, will be a place where these experiences can be found and children and grown-ups alike can still soak up the essence of the farm.

Entrance Facility
 • Restroom
 • Farm exhibit/information area

Privy

School House
