

## CITY OF OVERLAND PARK POSITION DESCRIPTION

<b>TITLE:</b>	Engineering Technician II	<b>BAND/LEVEL:</b>	Tech II
<b>DEPARTMENT:</b>	Public Works	<b>JOB NO:</b>	3470
<b>DIVISION:</b>	Street Engineering and Construction	<b>DATE:</b>	11/5/2013
<b>REPORTS TO:</b>	Assistant City Engineer or Supervisory Civil Engineer	<b>FLSA STATUS:</b>	NE
<b>FULL-TIME:</b> <input checked="" type="checkbox"/>	<b>PART-TIME:</b> <input type="checkbox"/>	<b>TEMPORARY:</b> <input type="checkbox"/>	<b>COST CENTER:</b> 310/311

**REPLACES:** Engineering Technician II

**DATE:** 3/20/2013

---

### **JOB SUMMARY STATEMENT:**

Designs and drafts construction plans for small projects, assists in the design and drafting of construction plans for more complex projects. Performs land surveys and assists in construction staking for storm sewer and street projects. Researches property ownership data and legal documents. Updates and maintains plat maps, storm sewer maps, and aerial maps. Assists the general public with questions or requests. Assists with emergency operations, including snow removal, as required.

---

### **DUTIES AND RESPONSIBILITIES:**

1. Prepares construction plans for storm sewer, street construction, and maintenance projects. Reads plats, maps and construction plans. Translates accumulated field data and engineering data into construction plans using standard drafting techniques and computer-aided-drafting system (CAD). Computes surveying and engineering mathematical problems. Analyzes and recommends possible solutions to engineering problems. Determines quantities of materials needed based on plan specifications.
2. Performs land surveying and topography surveys for storm sewer and street projects. Reviews plats, maps and construction plans. Computes surveying problems and calculations. Collects existing field data using a total station, digital level and data collector with survey software.
3. Performs construction staking for storm sewer and street projects. Determines proposed storm sewer or street locations from plans and stakes the location using surveying techniques and equipment. Computes surveying problems and calculations.
4. Researches property ownership and legal documents. Investigates existing right-of-way and easements through documents located in the county courthouse or accessed through city and county computer records.
5. Updates City plat maps by re-drawing right-of-way and easement information on both City plat maps and storm sewer maps. Updates storm sewer plat sheets with locations of new storm sewer facilities.
6. Organizes and manages archived construction plans and documents.
7. Assists the public with questions or requests for information requested over the phone or in person. Answers questions, retrieves copies of plat sheets, city maps, storm sewer sheet, aerial sheets and any other prints required.
8. Performs construction inspections per City standards and project specifications. Measures field quantities. Makes independent field decisions.
9. Performs bridge inspections with assistance from assigned engineer. Ensures public safety and federal requirements.
10. Maintains City street inventory and condition index and generates City map and related maps. Generates reports and displays as required.
11. Prepares photographs, charts, videotapes, exhibits, and maps for meetings and public hearings. Uses best graphics means available.
12. Maintains database of sidewalk and curb repair complaints. Maintains sidewalk agreement records. Assesses areas in need of repair.

**Title:** Engineering Technician II  
**Cost Center:** 310/311  
**Date:** 11/5/2013  
**Page** 2

13. Monitors and maintains Overland Park Flood Warning System. Checks computer systems daily to ensure the production and accuracy of remote site reports. Troubleshoots problem gages and assists in problem resolution. Maintains remote stations in good working order. Troubleshoots transmitters and sensors.
14. Assists with emergency operations, including snow removal, when required.
15. The employee must work the days and hours necessary to perform all assigned responsibilities and tasks. Must be available (especially during regular business hours or shifts) to communicate with subordinates, supervisors, customers, vendors and any other persons or organization with which interaction is required to accomplish work and employer goals.
16. The employee must be punctual and timely in meeting all requirements of performance, including, but not limited to, attendance standards and work deadlines; beginning and ending assignments on time; and scheduled work breaks, where applicable.

---

## **GENERAL QUALIFICATIONS**

---

### **EDUCATION & SPECIAL LICENSE(S)/CERTIFICATIONS:**

High School Diploma or equivalent and 5 years of experience as an Engineering Technician OR an associates degree in the area of civil engineering, computer aided drafting, construction technology, surveying, or related field plus 2 year of experience as an engineering technician, OR equivalent combination of experience and education. Must have a valid driver's license and maintain an insurable driving record. Must have or obtain a commercial driver's license (CDL) within 12 months of employment with the City.

Certification in Autocad, GIS Mapping applications, surveying, or other certification relevant to job requirements is preferred.

### **EXPERIENCE:**

See Education & Special Licenses/Certifications.

### **SKILLS:**

1. Surveying skills
2. CAD skills
3. Manual drafting skills
4. Computer operation skills
5. Good oral and written communication skills for working within the office and with the public

### **MENTAL REQUIREMENTS:**

1. Ability to compute mathematical calculations used in surveying and measuring
2. Ability to translate accumulated field data and engineering information into legible construction plans
3. Ability to read plat sheets and maps
4. Ability to read and comprehend City codes
5. Ability to analyze complex problems (OP Flood Warning System) and recommend possible solutions
6. Exhibit diplomacy and judgement when working with citizens, contractors, or other public officials
7. Ability to work under distracting conditions when surveying or construction staking
8. Ability to understand computer commands and generated reports

### **PHYSICAL REQUIREMENTS:**

1. Hand/eye coordination to operate surveying equipment
2. Ability to place construction stakes with the use of manual tools
3. Ability to traverse rough terrain
4. Exposure to vehicle noise and fumes
5. Exposure to extreme environmental conditions
6. Ability to draw engineering plans manually or with the use of CAD
7. Ability to travel to field locations or other public buildings

**Title:** Engineering Technician II  
**Cost Center:** 310/311  
**Date:** 11/5/2013  
**Page** 3

- 8. Ability to visually review maps, plans and plats
- 9. Ability to operate print machine, plotter and other drafting equipment
- 10. Ability to operate City vehicles.

**SEE ESSENTIAL FUNCTIONS BELOW FOR ADDITIONAL PHYSICAL REQUIREMENTS**

**SUPERVISORY RESPONSIBILITY (Direct & Indirect):**

None

The preceding job description has been designed to indicate the general nature and level of work performed by employees within this classification. It is not designed to contain or be interpreted as a comprehensive inventory of all duties, responsibilities, and qualifications required of employees assigned to this job.

**ESSENTIAL FUNCTIONS**

ACTIVITY	DURATION	DESCRIPTION
Standing	Occ. - Const.	even and uneven surfaces
Walking	Occ. - Const.	even and uneven surfaces
Sitting	Occ. - Const.	motor vehicle operation / office environment
Driving	Occasional	motor vehicle operation; automatic transmission
Bending	Occ. - Freq.	Measuring / using misc. instruments
Stooping	Occ. - Freq.	Measuring / using misc. instruments
Twisting	Occasional	Misc. instrument use and material handling
Kneeling	Occasional	Misc. instrument use and material handling
Squatting	Occasional	Misc. instrument use and material handling
Crawling	Occasional	crawling in / through pipes
Stairs	Occasional	inlets
Ladders	Occasional	inlets

LIFTING	WEIGHT	HEIGHT	FREQUENCY	DURATION	DESCRIPTION
Monument casting	75 lbs.	ground to waist	variable	occasional	two person lift
sledge hammer	10 lbs.	floor to shoulder	variable	occasional	two hand lift
traffic cones	25 lbs.	0-49 inches	variable	occasional	one or two hand lift
traffic barricade	22 lbs.	0-49 inches	variable	occasional	one or two hand lift
Carbite blade	61 lbs.	0-24 inches	variable	occasional	two person lift
Rubber blade	90 lbs.	0-24 inches	variable	occasional	two person lift
Backing plate	150 lbs.	0-24 inches	variable	occasional	two person lift
Material spinner	100 lbs.	0-24 inches	variable	occasional	two person lift
Tailgate doghouse	95 lbs.	0-61 inches	variable	occasional	two person lift

CARRYING	WEIGHT	DISTANCE	FREQUENCY	DURATION	DESCRIPTION
Monument casting	75 lbs.	0-20 feet	variable	occasional	two person carry
Sledge hammer	10 lbs.	0-20 feet	variable	occasional	one or two hand carry
Traffic cones	25 lbs.	0-20 feet	variable	occasional	one or two hand carry
Traffic barricade	22 lbs.	0-20 feet	variable	occasional	one or two hand carry
Carbite blade	61 lbs.	0-10 feet	variable	occasional	two person carry
Rubber blade	90 lbs.	0-10 feet	variable	occasional	two person carry
Backing plate	150 lbs.	0-10 feet	variable	occasional	two person carry
Material spinner	100 lbs.	0-25 feet	variable	occasional	two person carry
Tailgate doghouse	95 lbs.	0-25 feet	variable	occasional	two person carry

**Title:** Engineering Technician II  
**Cost Center:** 310/311  
**Date:** 11/5/2013  
**Page** 4

PUSHING/PULLING	FORCE	FRQUNCY/DUR	DESCRIPTION
160 lb. man hole cover	73 lbs.	occasional	1 or 2 hands
Material spinner	100 lbs.	occasional	two person push/pull - 0-20 inches
Snow plow	40 lbs	occasional	two hand push/pull

REACHING	DURATION	DESCRIPTION
Below Knee Height	occasional	use of varioius tools
Below Waist Height	occasional	use of varioius tools
Forward > 2 Feet	occasional	use of varioius tools
Above Shoulder Height	occasional	use of varioius tools
Lateral Reach	occasional	use of varioius tools

FINE MOTOR	DURATION	DESCRIPTION
Gripping	occ. - freq.	misc. tool usage; computer utilization; handling materials
Pinching	occ. - freq.	misc. tool usage; computer utilization; handling materials
Wrist Flexion & Extension	occ. - freq.	misc. tool usage; computer utilization; handling materials
Wrist Lateral Deviations	occ. - freq.	misc. tool usage; computer utilization; handling materials
Pronation & Supination	occ. - freq.	misc. tool usage; computer utilization; handling materials

**OTHER IDENTIFIED ESSENTIAL FUNCTIONS:**

- 1)Use of computer / keyboard / mouse device
- 2)Ability to drive and inspect necessary roads during snow event
- 3)Computer software would require some degree of visual color discrimination

The position of Engineering Technician is variable in nature related to the frequency and duration of all essential functions. Depending on the type of project that is ongoing, there will be time periods when an individual working in this position will spend up to 8 hours working in an office environment and within several days or a week will spend up to 8 hours in the field standing, walking, inspecting, measuring, etc. Therefore, it is difficult to identify an exact frequency and duration of many of the above identified tasks.
