

Concrete Paver Stones Notes:

- Interlocking concrete paver stones shall meet the requirements of ASTM Designation C936.
- Paver stones shall be red, cobblestone style consisting of the following nominal sizes:
full stones - 4 5/8" x 7" x 2 3/8";
two thirds stones - 4 9/8" x 4 9/8" x 2 3/8";
one third stones - 4 5/8" x 2 5/16" x 2 3/8".
The mix of stone sizes shall be approximately 28% full size, 57% two thirds size and 15% one third size.
- Paver stones shall be installed in accordance with manufacturer's recommendations.
- Geotextile fabric shall be placed between paver stones and curb or paver stones and concrete header to keep sand in place.
- A 6" PVC sleeve or 6" core drilled hole shall be installed completely through the full depth of pavement to the top of subgrade in all concrete, asphalt, or paver stone medians or islands for sign posts.
- See Approved Materials List for pre-approved products.
